

## COVID – 19 and DRBA Discount Plans

Delaware Memorial Bridge customers with a Commuter Plan are permitted to suspend the plan at any time. Customers may suspend their plan a maximum of four times per year, a provision that was in effect prior to the COVID – 19 pandemic.

For Frequent Traveler Plan (FTP) customers, suspension is not usually an option; however, we are currently allowing FTP customers to suspend their plan during the current travel restriction period.

It should be noted that the suspension of either plan must be a minimum of 7 days. If you travel over the bridge during the 7 day period, you will be charged the standard account rate of \$4.75 for passenger vehicles. The first trip taken over the bridge after the 7 day period will end the suspension and reactivate your plan.

Please note that **Frequent Traveler customers will not be able to reactivate a second suspension as this process is designed to cover the current travel restrictions.**

You may process the request online at [www.ezpassnj.com](http://www.ezpassnj.com) or you may contact the Customer Service Team at 1-888-288-6865
